

# SENSOR PRODUCTS 感应产品

As a high-tech water-saving product, the sensor faucet is silently revolutionizing new concepts of sanitation and water-saving. The sensor faucet has developed rapidly after SARS, and has been widely used in public places such as hospitals, schools, hotels, entertainment venues, stations and docks, office buildings, government offices, etc. With the country's further popularization of water-saving knowledge, public awareness of water-saving is increasingly, the sensor faucet will be used by more users.

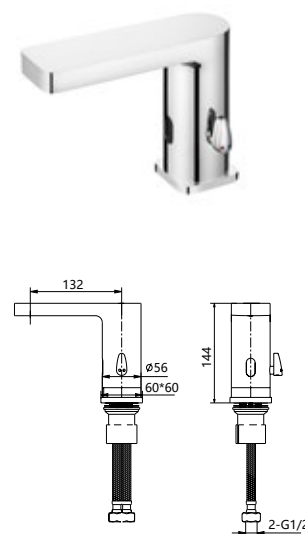

感应龙头作为一种高科技的节水产品，进行着卫生与节水新观念的无声革命。感应龙头在非典之后发展迅速，目前已经在医院、学校、宾馆酒店、娱乐场所、车站码头、写字楼、政府办公楼等公共场所广泛使用，随着国家对节水知识的进一步普及，大众节水意识日益提高，感应龙头必将被更多的用户使用。
